

## BRIC-A-BRAC

While the term means “miscellaneous objects or ornaments of little value”, we are making bricks out of those miscellaneous fabric scraps that live in our stashes!

FINISHED SIZE: 39” x 51”

FABRIC REQUIREMENTS: (This is a scrappy quilt)

16 small bricks cut 7 1/2” x 4 1/2”

12 large bricks cut 10 1/2” x 4 1/2”

1 yard solid or read-as-solid fabric

Cut nine 2 1/2” strips x WoF for the sashing and five 2 1/2” strips for the borders.

Sub-cut two of the strips into 2 1/2” x 4 1/2” rectangles for the mortar between the bricks. Two strips should yield 18 of the 20 needed. Cut the last two off two ends of horizontal sashes.

Rows 1, 3, 5 and 7:

Join four small bricks with mortar sashes in-between

Rows 2, 4, 6 and 8:

Join three large bricks with mortar sashes in-between.

Join rows together, adding sashing between each row.

Add borders to the sides then to the top and bottom.

*(This sample shows a contrasting border.*

*To do this, you would need  
1/2 yard for sashes  
and 1/3 yard for borders.)*
